

Proget REI 120 single-leaf door:

- Galvanized steel-sheet door leaf with insulating-material core, without bottom frame, total thickness 60 mm.
 - Corner frame made of galvanized steel-sheet profile, with brackets to be set into wall, joints for on-site assembly, and screw-on bottom spacer.
 - Lock complete with cylinder bore and keyhole for patent keys.
 - Safety bolt in hinge-side leaf edge.
 - Black safety handle with steel core, supplied with plates, cylinder bore and keyholes for patent keys.
 - 2 hinges: one hinge with self-closing spring, one ball-bearing hinge with screws for the vertical adjustment.
 - Strengthening plates inside door leaf for fastening door closer and emergency handle if required.
 - Thermoexpanding gasket inserted in appropriate cavity in frame and in bottom edge of door leaf.
 - Identification plate on door edge.
 - Painted with epoxy-polyester oven-baked powder paint with anti-scratch goffered finish - light pastel turquoise for door leaf (NCS4020-B50G), and a darker shade for the frame (NCS5020-B50G).
 - Sound insulation with automatic sill seal = 30 dB
 - Weight aprox. 46 kg/m² wall opening.
- Cylinder and weather stripping are supplied only upon request.
